

Blackbutt

Blackbutt is the ideal timber for a wide variety of cladding, flooring and decking applications.

Common name	Blackbutt
Look & features	A particularly strong and durable timber that can display gum and veins, giving it a unique look
Botanical name	Eucalyptus pilularis
Colour	A subtle colour range where light and neutral is required, from golden yellow through to pale browns – it may also have a slightly pinkish tinge
Common uses	An extremely versatile timber with uses ranging from posts and beams through to decking, flooring, and furniture

A popular choice for architects, builders, and designers, Blackbutt is admired for its incredible durability and fire-resistant properties.

Perfect for large fit-outs (for example, shopping centres and high-rise buildings), Blackbutt is a readily available and versatile timber.

A beautiful hardwood, Blackbutt presents a relatively straight and uniform grain with an appealing colour palette, ranging from cream to pale brown with a hint of pink.

With a reputation for excellence, Recycled Timbers' Class 1 Durability Blackbutt is in high demand within the commercial building industry. Our recycled Blackbutt is graded to industry standards, while our sustainably sourced, new Blackbutt is from certified sources.

Properties

Density (kg/m³)	
GD	1,150
ADD	900
Hardness kN (Janka)	
Green	6.4
Dry	8.9
Durability class	1
Strength group	S2/SD2
Joint group	J2/JD2
Shrinkage	
Radial % (approx.)	4
Tangential % (approx.)	7
Structural grades	
Unseasoned	F14/F17/F22
Seasoned	F22/F27
Toughness (Nm)	
Green	Medium
Dry	Medium
Early fire hazard indices	
Ignitability	13
Spread of flame	7
Smoke development	3
Termite resistant	Yes
Lyctid-susceptible sapwood	No
